

Approximate distance: **1,5 km**

**Description:** From Plaça Catalunya, you can walk along the town's southern seafront as far as the point of the mouth of the river Tordera. All the route is flat. The first part passes along the seafront promenade, and at the end of this there is a track which runs between the beach and the pine-woods of the campsites and leads to the river mouth.

**Some points of interest along the route:**

**18. Rocks of Sa Palomera, Sa Pujola and Es Portell**

These rocks mark the start of the Costa Brava. The view of the town's seafront from the top of Sa Palomera is highly recommended.

**19. S'Auguer district**

This is one of the town's traditional fishermen's and sailors' neighbourhoods, and its beach still serves as a refuge for small fishing boats. This area also has a good selection of fish restaurants.

**20. Promenades Passeig de la Marina and Passeig de S'Abanell**

These are the two sections of the seafront promenade, which leads from S'Auguer to the campsites and connects with the track leading to the river mouth.

**21. Nostra Senyora del Vilar**

This is a characteristic group of houses of the early 1960's 'Obra Sindical del Hogar' ('workers' homes') projects, and is composed of low-rise houses distributed around a square and the church.

**22. Mouth of the Tordera river**

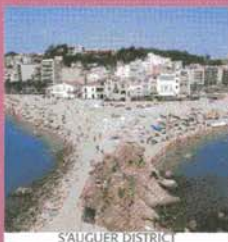

This river rises in the Montseny hills and provides water for all of the villages of the area. The river marks the boundary between the provinces of Girona and Barcelona.

**Other possibilities:**

- From this point you can connect with the cycle path which runs parallel to the river. Among other things, it is interesting to observe the riverbank vegetation, which is described on notice boards.
- You can also return to the town by Avinguda de la Vila de Madrid. This is the area of Blanes which has most tourism and leisure facilities.
- In front of the Racó d'en Portes there is a municipal sports zone where you can enjoy a wide range of sports activities.
