

Concurs de treballs de Recerca-Blanes 2019

Títol del treball: **A new beer is born**

Autor/a: Marina Andreu González

Tutor/a: Cristina Soler

Hypothesis:

IT IS POSSIBLE TO CREATE AND COMMERCIALISE A CRAFT BEER WITH JUST A PREVIOUS RESEARCH AND BASIC KNOWLEDGE.

METHODOLOGY

- Documentation through books and webs.
- The knowledge acquired during all the years involved in the family business.
- Putting into practise all that I have learnt developing a beer recipe and brewing it.

• A NEW BEER IS BORN •

OBJECTIVES

- Make a research about the origin of beer.
- Investigate about the role of women in beer history.
- Expose the differences between a craft beer and an industrial one.
- Research about the ingredients of a craft beer.
- Create and commercialise a beer.

CONCLUSION

- Objectives accomplished but hypothesis refused.
- You need more than a previous research to create and commercialise a beer.
- You need the help of some professionals, a brewery with all the machinery and the controls that the law demands up to date.
